Suspicious Unsolved Mysteries

By: Jairaj Sharma

1. The Bermuda Triangle
Between the points of Miami, Bermuda, and Puerto Rico, this area of ocean is legendary. Pilots assigned to fly over this expanse of ocean report their equipment going crazy! There even are reports of ships going missing in this area. People think that there are logical explanations behind these strange events, while others are blaming aliens! Although there are theories, nobody knows the real reason of this phenomena.

2. Bigfoot

You've probably heard of this ape, but don't you still think it's still a big mystery? Also known as Sasquatch, this ape, at first sight looks like a gorrilla. But as you see, it's manlike walking, you could see that it's actually the infamous Bigfoot.

Suggested Game by Brett M.

Lego worlds!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Lego worlds is like minecraft and so much more! In fact, people are calling it, "Lego's answer to minecraft". There's so much more! Sadly, there are no Creepers in Lego worlds, but, there are many different vehicles, people, biomes and animals! On a side note, today I'm going to start doing V.S. (like, which game is better?) I'll also start doing game legends! (like Herobrine and stuff) this game does require a Steam account! It also costs 25\$! That might be expensive, but it is worth it!!!

Cinema Showcase!

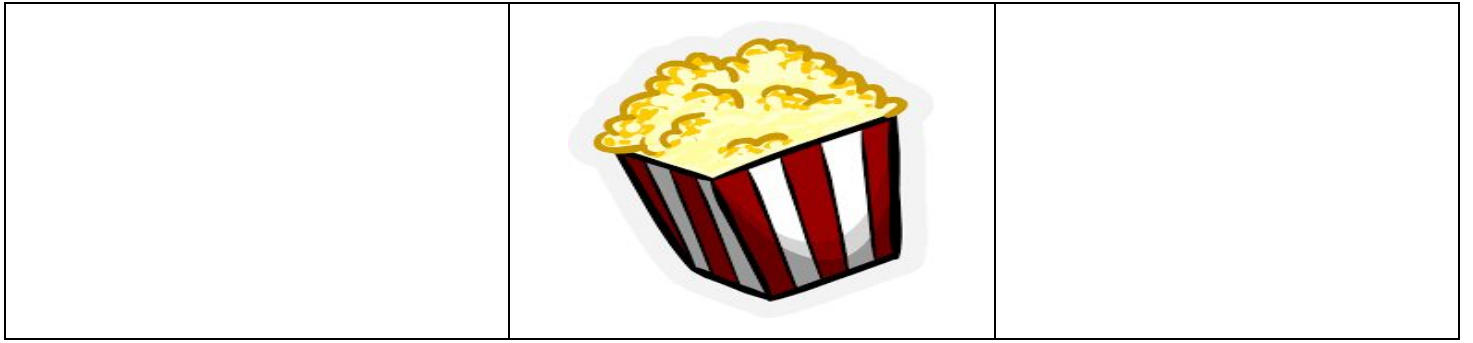

By: Jane Bayma

Dananananananana Batman! The Lego Batman movie is out! There are big changes brewing in Gotham like how Batman accidentally adopted Robin! Robin tries to get Batman to work with others and maybe, just maybe learn to lighten up. Like always Joker attacks the city with new and strong villains you all know like my favorites the Daleks, the Gremlins, Kingkong and so on. Maybe his superhero sidekick Robin and loyal butler Alfred can show him a thing or two.

The cast of the movie:
Will Arnett as Batman
Zach Galifianakis as Joker
Michael Cera as Robin
Jenny Slate as Harley Quinn
Rosario Dawson as Barbara Gordon
Ralph Fiennes as Alfred J. Pennyworth
Keep reading for next weeks movie:

Ask Ellie!

Sorry guys!

Sadly I did not get any advice this week. Make sure you submit advice questions in the orange folder outside of the computer lab!

-Ellie King
