SPORTS CORNER

By: Xavier Lopez

Hello fellow citizens of MACS. This time, we will be writing about the brawl between Lebron "The King" James and Stephen "Swish Master" Curry. When the Cavaliers played the Warriors in The Golden Gate State, someone in the crowd yelled an insult about Lebron James and Lebron suspected Curry yelled it out. The argued continuously until Lebron threw a punch. Curry dodged and the punches kept coming. It happened for 4 minutes until all of the Cavalier and Warrior players, including referees, had to use their full strength to pull them apart. Both were ejected, or forced to leave. They both must pay a fine of 300,000 dollars each. Their rivalry just got bigger. Thanks to Vibhav for writing

Statue Fail Much?

By: Vibhav Sharma

On March 27, 2017 ... (Star Wars opening music plays) Ronaldo's HOF Statue came out (Music Scratches)... to be a BIG FAIL! The eyes were too small and I am not going to get started with the *ahem* "smile".

The sculptor, Emmanuel Santos, apparently hates Real Madrid (The team Ronaldo is currently playing on) and thinks Ronaldo is a cheater. La Liga (The League Ronaldo pays for) is looking for a statue creator to make a new statue.

Beaver

By: Autumn Rice

What's that building in the North American forests and rivers? It's a beaver! Beavers are famously known to be smart and busy. They are some of the largest rodents on Earth and their average weight is about 60 pounds.

Beavers are herbivores so their diet consists of leaves, roots, and other aquatic plants. The Beavers' main food sources are twigs, tree bark, and cambium. Cambium is the soft tissue inside of the trees. The types of trees that Beavers prefer are willow, maple, birch, and alder.

You may be wondering, "What do Beavers do that is so creative?" Well, these creatures make their own homes called lodges or dams. The Beavers make these in rivers and lakes. They make them out of logs, sticks, and twigs. The only entrance into the lodge is located under the water, at the bottom of it.

Did you know that Beavers are excellent swimmers? They have to be to get into their lodges. The Beavers have special bodies that help them swim. First of all, beavers have large, webbed rear feet that they use for mainly speed. Beavers can hold their breaths for up to 15 minutes underwater. These creatures have paddle-shaped tails that they use to steer and make sharp turns with in the water. Beavers also have a set of transparent eyelids that protect their eyes from the water. These features help the beavers swim at speeds up to 5 miles per hour.

Cinema Showcase!

By: Jane Bayma

This live action version of the 1991 movie is magical, mystical, marvellous...uhh... what else starts with M? This is by far the future of cinematic animation, I mean look at the beast! The movie is pretty much like the old Beauty and The Beast but better! The same romantic story: A handsome prince gets cursed and turned into a beast and can't change back till a woman falls in love with him. Belle, who loves books, has to let her dad go from the beast's prison and take his place. The furniture who can talk thinks if Belle falls in love with the beast it will break the curse. Belle teaches the beast kindness, blah blah blah you know the story, and if you don't my jaw will drop. I just watched it and I fell in love!

Here's what my peeps think of it:
(I'm ranking them from 1 to 5 stars)

Ellie King: 5 stars!
"I loved the part where Gaston died"
#SPOILER ELLIE SPOILERS!!!

Vibhav Sharma: 3.5 stars.
"I love it when the dude dies"
Ok is there anything else people like?!?

Jairaj Sharma : ????
" I forgot to cash in my check"
Seriously Jairaj?

Stay tuned for next week's issue:

UNDERTALE

BY: MELLANIE BEAN

Undertale, the game many people know. Undertale is a game of truth and love. The game is amazing depending on how you play. For example, the pacifist route, the genocide, and the neutral route. Out of every route, pacifist is the longest where you don't hurt anyone, but you "SPARE them. The main characters are very big in this game. Frisk, is you. You control Frisk with the arrow keys and you give the character a name.

As you travel through the underground after falling from the surface world, you meet the first character, Flowey. Flowey tells you a bit about what you need to know, before trying to kill you with "friendliness pellets" When that happens, Toriel interrupts the fight and saves you! The fun-loving goat mom leads you through the underground until you enter a battle with her after trying to leave the Ruins. Once she agrees to let you leave, you enter Snowdin. You meet the tallest skeleton, Papyrus, and the older and shorter brother, Sans. Papyrus' dream, get into the Royal Guard and be loved by everyone. Sadly, Undyne, the head of the Royal Guard, won't let him in yet.

Sans tells you his cheesy puns along the way the to Waterfall where you meet Undyne. After meeting Undyne, you travel through Waterfall to the Hotlands where you meet Alphys. You'll have to play the game to find out the ending, but the other characters are Chara, Asriel, King Asgore, and Mettaton. I completely recommend the game to every adventurous person.

Ask Ellie!

Dear Ellie,

There is a girl in my class who has a crush on the same guy as me, help!

Sincerely,
Lost in Love

Dear Lost in Love,

You shouldn't care that she has a crush on the same guy as you. You shouldn't try to impress him. Plus, you shouldn't pick a fight with the other girl. Whatever you do, don't be jealous of her because you're perfect the way you are. And, you know, maybe you'll get your moment to shine.

Sincerely,
Ellie King

Dear Ellie,

How do I put videos on YouTube?

Sincerely,
Stephanie, First Grade

Dear Stephanie,

You have 2 options here:
If you made your video that you want to post on iMovie, click/tap on the upload button and it will give you options, like camera, notes, facebook, and then there is YouTube. Click on YouTube and something will appear on your screen. It will have a line that says "name" then you write what you want your video to be called.

Now, if you're on the YouTube website/app you need to have a google account and sign in so you can make your own channel. Also make sure your parents approve you can post videos of yourself on the internet!
Good luck!

Sincerely,
Ellie King

2 Coolest Cars

By: Jairaj Sharma

1. Ford Mustang Mach 1

The name Mustang must be familiar name to you. This cool car must remind you of "Cars," you know, like those really old animation movies where the cars are alive. Yeah, when you were five you probably watched it. Its horse (hp) power is 305hp. That is super fast.

2. Lamborghini

This new car has been made with many designs and colors. You've most likely heard it in your show you watch on TV. This is a really and I mean really expensive car. It is recently made and can go 220 mph. I'm pretty sure you could win a car race with that!

Theater has MADE our own play! It features Finn the Falcon and his adventures of microcity. We will be selling NEW SNACKS! We will sell Goldfish and cookies!
See you there!
