

Role of Parents

Cooperation and Communication

Although unlikely, if a school emergency or disaster situation occurs while school is in session, parents play a key role in keeping students safe and secure.

Remember to...

- Remain Calm
- Cooperate with Authorities
- Respond to Official Messages

Cooperating with City of Nashua first responders is key, allowing them immediate access to the site of the incident. Staying at the identified pick-up location rather than traveling to the school is important to make sure rescue efforts are not hindered.

Looking for timely messages from officials is also important. Parents need to keep up-to-date by watching for automated messages on phones and in email inboxes. School officials, such as the School Director will work closely to send messages to parents with accurate and current information.

Parents' To Do List

Know your child(ren)'s:

Bus # _____

Classroom # _____

School _____

Teacher's Name _____
